YOUNGSTOWN STATE UNIVERSITY

STEM

College of Science, Technology,
Engineering and Mathematics

YSU is proud to be the first, and only, STEM College in the State of Ohio, as well as the second STEM College in the USA. The University's undergraduate engineering program has been ranked among the top 25% in the world by *US News and the World Report*, giving it global recognition and maintaining its reputation for academic prestige. The Youngstown Business Incubator is the number one ranked university-affiliated business incubator in the world, and YSU STEM has faculty, staff and students constantly involved in their projects. YSU is also the closest university in the country to *America Makes*; the only United States National Additive Manufacturing Innovation Institute.

The University has partnered with more than 100 businesses, including international companies such as Siemens and NASA for internships, co-ops and job placements that greatly enhance its students' employability. YSU's engineering students are renowned for their incredible skill and performance in undergraduate competitions.

YSU Engineering Programs

Youngstown State University offers students a broad range of engineering courses at both undergraduate and postgraduate level, including:

- Chemical Engineering
- Civil and Environmental Engineering
- Electrical and Computer Engineering
- Industrial and Systems Engineering
- Mechanical Engineering
- Engineering Technology

Center for Innovation in Additive Manufacturing

YSU's Center for Innovation in Additive Manufacturing (CIAM) was created to advance research, education, workforce development and industry partnerships in the emerging field of 3D printing. CIAM is the focal point for additive manufacturing activities, providing resources not only for the College of STEM but also for other academic divisions, including the arts and health sciences. YSU is the premier university in this cutting-edge field of engineering. YSU students have access to six out of seven different types of Additive Manufacturing equipment:

Stereolithography
Digital Light Processing
Inkjet-Binder/Material Jetting

Fused Deposition Model
Selective Laser Sintering/Melting

Electron Beam Melting
Selective Deposition Lamination

Facilities and Equipment

YSU's undergraduate students have regular access to sophisticated, state-of-the-art equipment, typically restricted to graduate student use by the majority of universities, including:

- Mechanical Properties Testing Laboratories:
 - Macroscopic Property Characterisation
 - Numerous Hardness Testers
 - Dynamic Testing

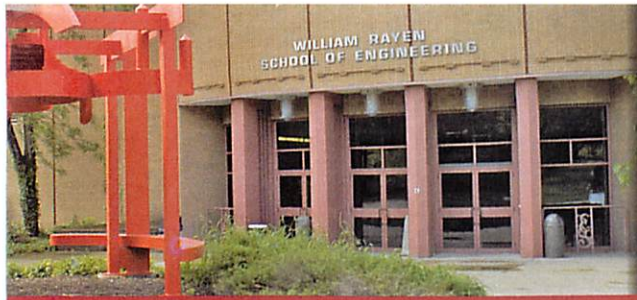

- Ballistics Testing
- Nano- and Micro-Scale Property Characterisation
- Electron Microscopy Materials Characterisation Equipment:
 - Scanning Electron Microscopes
 - Transmission Electron Microscope
 - Atomic Force Microscope
- Additional Materials Characterisation Equipment:

MBA

Master of Business Administration

To compete in today's highly competitive global business environment, the upwardly-mobile professional must continuously improve. The YSU MBA is focused on ensuring quality and value for our students. We strive to create value through knowledge that will position you to succeed not only in the classroom, but more importantly, in the performance of your responsibilities and achieving your career goals.

Hallmarks of YSU Williamson College of Business Administration Programs

- **Professional Focus:** The program and its courses are structured to help you develop a core set of capabilities that allow you to succeed beyond the classroom, becoming a better leader, decision maker, manager and strategic thinker.
- **Time to Completion:** The YSU MBA requires students to complete 39 credit hours. Coupled with the delivery method, this can allow you to complete the program faster – which we know is important.
- **Admission Criteria for Working Professionals:** Admission criteria values the importance of work experience. In fact, for those with appropriate professional work experience, a GMAT or GRE may no longer be required for admission (applicants may apply for a waiver).
- **Designed for Working Professionals:** Students want, and need, courses delivered in a more timely and effective manner. Courses are offered over eight-week (or shorter) periods in business-friendly concentrated (2 or 1 credit) formats.
- **Flexibility:** Most courses do not require a prerequisite. This provides you more choices as to when you take your required courses based on your professional needs or schedule.
- **Internationally Recognized Faculty:** WCBA faculty members have earned PhDs from many of the top universities in the United States, such as Purdue University, The Ohio State University, University of Illinois, University of Pittsburgh, University of Washington, SUNY Buffalo and Boston University. Students have the opportunity to work closely with faculty and peers to help create opportunities or solve problems for actual businesses.
