Please write a brief summary of the report the Committee is submitting to the Senate:

The Design Committee recommendations unanimously approved by the Senate last spring have yet to be placed on the BoT meeting schedule. As such, the committee is waiting for feedback before pursuing most further work and recommendations. The issue of parking for motorcycles and motorscooters was sent to the committee by Prof. Mike Costarell. The faculty was briefed by Danny O’Connell over the restrictions necessary for new motorcycle parking spaces (i.e. they cannot be where there are gates, they cannot be on blacktop, traffic patterns cannot endanger pedestrians, etc…) and the rationale for those restrictions. O’Connell and Hyden brainstormed over where new spaces might go. It was agreed that Mr. O’Connell would contact Prof. Costarell directly to go over concerns, and that the Design Committee would be kept in the loop as plans were developed.

John Hyden then gave a briefing to the committee on where some projects were, in particular the pause in the Kilcawley work preceding contingent on funding and on developing plans to accommodate the Center for Student Progress in Maag Library.

The committee agreed that the next meeting should occur when presentation of the previous resolution to the BoT has occurred.

If substantive changes in your committee recommendation are made from the floor, would the committee prefer that the matter be sent back to committee for further consideration?
