Update on Assessment of Student Learning

YSU has made and continues to make progress in fostering meaningful and relevant assessment of student learning.

Assessment of Student Learning Activities

- **Academic Assessment:** Academic programs engage in assessment reporting on a five-year cycle through an Assessment Plan, Assessment Update, or a Cycle Reflection. Reports were due October 31, 2023. Programs can request a submission extension. Programs identified for sunset through APEEI with enrolled students complete a shortened Teach Out Update. As of November 9, 44% of academic programs have submitted reports, with another 33% requesting extensions through the end of the fall semester. Institute for Teaching and Learning Staff will outreach to the remaining 23% of programs to support their annual assessment submission. As part of the Assessment Council, ten volunteer reviewers will review submissions this fall and winter. Feedback will then be shared with programs and made available to chairs and deans.
- **Co-Curricular Assessment:** Co-curricular programs continue to engage at high levels with student learning assessment. Reports were due the end of June 2023 with all but one program submitting. In September, five peer review feedback groups met to discuss submissions and provide feedback on assessment processes. Feedback was summarized and sent to programs via Taskstream AMS. The Institute for Teaching and Learning continues to consider ways to support co-curricular assessment. Most recently, the Assistant Director of Assessment co-presented with the YSU Director of Campus Recreation at the Ohio Recreational Sports Association Annual Meeting to highlight best practices in partnerships between assessment staff and student affairs staff.
- **Statewide Collaboration:** The Assistant Director of Assessment continues to meet monthly with other Ohio assessment coordinators from Bowling Green State University, Cleveland State University, University of Akron, Kent State University, and Shawnee State University to ensure YSU meets standards related to the assessment of student learning.

Current Student Data Collection

- **National Survey of Student Engagement:** YSU participated in the National Survey of Student Engagement (NSSE) in Spring 2023. All first-year and senior students were invited to participate. In addition to providing the standard survey questions, the NSSE asked students to complete two topical modules: Civic Engagement and First Year Experience/Senior Transitions. The NSSE survey had a 20% response rate. As of November 9, the NSSE data has been disseminated as an overview webinar, shared data and reports folders available to anyone with a YSU login credential, and tailored college-level reports. The Institute for Teaching and Learning also has partnered with the Honors College and Office of Community Engagement to share specific civic engagement data that may be of use

in pursuing the Carnegie Community Engagement designation. Data will continue to be shared widely across campus in the spring through an annual Lunch and Learn series.

General Education Assessment

General Education assessment is being re-evaluated as YSU transitions to university-wide learning outcomes and continues the General Education program transformation process. YSU adopted university-wide learning outcomes during the 2022-2023 academic year and then embarked upon a revision to the General Education program. After assessment of the legacy (2012) General Education curriculum stalled during the pandemic, a three-pronged assessment strategy was initiated during the Fall 2023 semester. This strategy includes: 1) capturing and assessing relevant ROAD data (this process is ongoing); 2) gathering updates from departments and programs with ongoing assessment strategies (ongoing); and 3) preparing plans for a staggered General Education assessment plan with a three-year rotation (2024-2025 STEM, 2025-2026 Social Science and Arts & Humanities domains, and 2026-2027 Written and Oral Communication domains).
