## Update on Assessment of Student Learning

YSU has made and continues to make progress in fostering meaningful and relevant assessment of student learning.

### Assessment of Student Learning Activities

- **Academic Assessment:** Academic programs engage in assessment reporting on a five-year cycle through an Assessment Plan, Assessment Update, or a Cycle Reflection. Programs identified for sunset through APEEI with enrolled students complete a shortened Teach Out Update. In 2022-2023, 74% of academic programs submitted reports. Chairs and Deans were notified of non-submitting programs. For 2023-2024, reports will be due on October 31, 2023. Information and training materials will be sent to program assessment coordinators, chairs, and deans in September.
- **Co-Curricular Assessment:** Co-curricular programs continue to engage at high levels with student learning assessment. Reports were due the end of June 2023. As of August 2023, 81% of co-curricular programs have submitted assessment reports, with another 14% of programs requesting an extension through the end of the summer. Peer review feedback groups will be utilized to discuss submissions and provide feedback on assessment processes during September 2023. Additionally, during summer 2023, ITL staff hosted a Co-Curricular Assessment summer book group reading and discussing *The Curricular Approach to Student Affairs* with five professional staff members.

### Current Student Data Collection

- **National Survey of Student Engagement:** YSU participated in the National Survey of Student Engagement (NSSE) in Spring 2023. All first-year and senior students were invited to participate. In addition to providing the standard survey questions, the NSSE asked students to complete two topical modules: Civic Engagement and First Year Experience/Senior Transitions. The NSSE survey had a 20% response rate. Data was released mid-August 2023 and is currently being analyzed by ITL staff. Data will be disseminated across campus beginning in early fall.
