

Accessing Student Activity

1. From your course, click the options menu for any assignment, test, or discussion. Select **Student Activity**.

The screenshot shows the 'Course Content' page with two assignments: 'Theories of Sociology' and 'Chapter 1 Review'. The 'Theories of Sociology' assignment has a due date of 5/31/17, 12:00 AM and is visible to students. The 'Chapter 1 Review' assignment has a due date of 12/17/16, 12:00 AM and is also visible to students. An options menu is open for the 'Theories of Sociology' assignment, showing options: Edit, Conversation, Student Activity (highlighted with an orange border), and Delete.

The top of the page shows an overview of information, including the course average submission time, time to open, time before due date, and submission activity for all students. The *Grade Distribution* shows the grades you have assigned to students.

The bottom half of the page includes individual student activity, including the following:

- Student name
- Activity timeline
- Start to finish time
- Grade

This data can be views in two modes: grid view or chart view. The grid view displays an Activity Timeline in a visual, box-and-whisker plot graph. Hover over the tick marks on the plot to see important markers of student activity, such as the date the student opened the assignment.

Student Activity Details

Student	Activity Timeline	Start to Finish	Grade	
Oliver Albe No submission		None	-- / 100	⋮
Hunter Brown Submitted: 5/10/18		5 minutes	76 / 100	⋮
Duncan Carroll No submission		None	-- / 100	⋮
Chris Casper Submitted: 5/10/18		5 minutes	92 / 100	⋮
Emily Churchill Submitted: 5/11/18		9 minutes	85 / 100	⋮
Ashby Cooper Submitted: 5/11/18		38 minutes	90 / 100	⋮
